CHASE CHROMIUM, COPPER AND BRASS SPECIALTIES FOR 1936-37

As our catalog goes to press, and we look over the Chase line of specialties that are offered for the season of 1936-1937, it seems to us that the Chase line is more attractive and salable than any we have ever had before. We feel the articles are correctly designed, not just a repetition of old finishes and decorations, and not too much in advance of the popular taste, but that they have the sureness and cleanness of design and manufacture that gives them a style of their own.

Year-Round Sales

Chase Specialties have changed in the last two or three years. They are not merely a giftware line that sells only around the Christmas holidays. For we have seen by our monthly sales how each year more and more of our business comes in other months of the year.

In other words, Chase Chromium, Brass and Copper Specialties are now carried as a staple line of merchandise that can be stocked and sold in all seasons of the year. We have tried to discourage stores from buying this merchandise only around the holiday season, and we have worked with our customers to help them promote the articles on a year-round basis.

The success of the Chase Shop idea, the various seasonal promotions that we have stimulated, our advertising and publicity, all these things help us and our dealers in the year-round sales idea.

No "Old" Products

Remember, therefore, as you glance through this catalog, that the Chase line as it now stands is not a line of novelties and gift merchandise with a temporary seasonal appeal. Rather think of it as an established line whose articles, because of their good design and use, have a long life and a year-round sale. Consider, for example, our Chase Cocktail Shaker No. 90034. We sell thousands and thousands of them every year even though we have introduced our newer Blue Moon Cocktail Shaker which is selling equally well. The older shaker is not "old"; it is still new. And because it is beautifully designed, properly made and fairly priced it will continue to sell this coming year, just as it has sold last year.

Do not, therefore, think only of "what's new," for many of our fastest selling products will be those which have been introduced this Spring or last Fall, but which are still gaining in popularity.

Subtraction and Addition

You will find, however, that some of the slower moving items have been eliminated, and many attractive new things have been added. You will see some lower priced novelties which are destined to be "hot numbers," you will find two or three higher priced products which will give quality and

Scanned with CamScanner

importance to the line, and you will also find many new smoking accessories in the lower price ranges.

Advertising and Dealers' Helps

Chase promotion, merchandising and advertising is even larger and more extensive this year. Four-color advertising will appear in the national magazines, our advertising schedule has been increased, and Chase advertising will work harder than ever in helping to sell Chase products. Publicity about Chase articles will appear in the national women's and class magazines. New ideas for window displays, for floor tables, for counter displays, for Chase Shops—all these will be furnished as usual, many of them through the medium of our new sales magazine which has proved so popular, the "Chase News." There will be Christmas folders for you to enclose with your mail and put on your counters; there will be "as seen in Vogue" cards for counter and window displays. The Emily Post book on buffet suppers will be available again at wholesale prices, and catalogs with stock control sheets are again ready for you to use.

Visit Chase Tower

Remember, too, to visit Chase Tower when you are in New York City. The famous fifty mile view into Connecticut, New Jersey and other suburbs of New York is still there waiting for you. And you will also see the latest models of Chase Shops, suggested window displays, attractive store tables and other display features. We urge you to visit us on your next trip to New York.

And once more, we thank our friends for the friendly support and pleasant relationship that has existed between us this past year, and we hope for the continuation of it for the coming season.

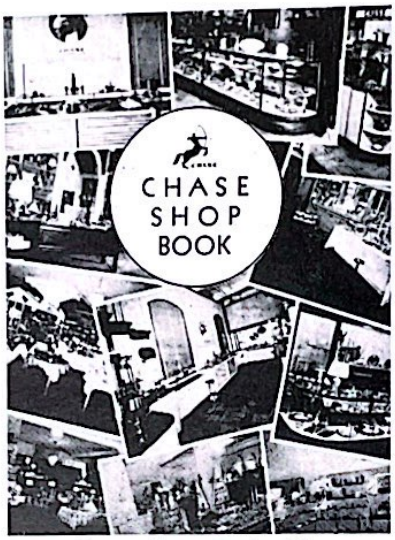
A CHASE SHOP
in YOUR STORE will INCREASE your PROFITS

OVER three years ago, an analysis of retail sales proved to us that where Chase merchandise was grouped for display and sales purposes, it sold much faster than where it was scattered throughout the dealer's store. With this basic idea, several of our customers put in Chase Departments, where only Chase Chromium, Brass and Copper Specialties were displayed and sold.

We learned several things from these first Chase Shops:

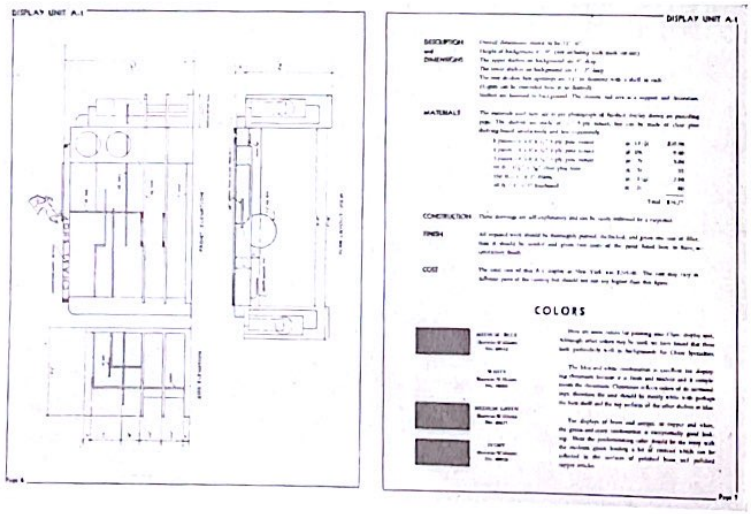
1. The sale of Chase merchandise was greatly increased (from 200% to 450%).
2. Store traffic was increased.
3. Other departments increased sales due to greater store traffic.
4. The store became known as headquarters for nationally advertised Chase Chromium.
5. The Chase Shop invariably paid for itself in a very short time.



The Chase Shop Book, 16 pages chuck full of valuable display ideas. Have you a copy?

From these facts, we worked on the idea and brought out the "Chase Shop Book"—a book of display ideas for the retailer. It contains plans, detail drawings, costs and finishes of several suggested displays and there are a few pictures of Chase Shops now in operation. This book will show you how you can put a Chase Shop in your store at very small expense and increase your profit.

Send for your copy of the "Chase Shop Book" now. There's no obligation and we'll be glad to help you in any way we can.



A "spread" of pages in the Chase Shop Book. The left-hand page shows a detail drawing of a Chase Shop. The right-hand page gives specifications, materials, detail of construction, estimated cost and color suggestions for the finished display.

ELECTRIC SNACK SERVER

No. 90048

The Electric Snack Server is an electrically heated dish with three food compartments, or casseroles. Food can be prepared in advance and be served two or three, or more, hours later without bother or delay. It has a total capacity of three quarts, enough for the serving of four to twelve people.

The design of the Snack Server is outstanding. It is circular in shape and has three one-quart food containers fitted with smart-looking "stepped-down" covers. The server is of chromium or copper, while the handles and knobs are of walnut. The casseroles are Pyrex glass, which will stand extremely high temperatures. Food can be cooked right in these containers and then put in the Snack Server to be kept hot.

The operation of the Snack Server is quite simple. With the casseroles removed, the server is filled with boiling water up to the water line marked on the inside. The electric plug is attached to any convenient receptacle outlet and the current turned on. The casseroles are brought in from the kitchen filled with the food to be served and placed in the server. The covers are put on and the luncheon is ready to be served immediately, or three or four hours later. There is no possibility of overcooking or burning—the temperature is maintained between 160° and 180°, a proper serving temperature but too low for cooking. The server operates on standard 110 to 120 volt current, either alternating or direct, 25, 40 or 60 cycles and consumes one-seventh of a kilowatt per hour.

On hot Summer days and evenings when cold foods are more appetizing than hot lunches, fill the server with cracked ice, which will chill the food and keep it cold until it is served.

The Electric Snack Server is 13 inches in diameter, and 6 inches high. It is available in polished chromium, or polished copper with walnut fittings. Approved by Good Housekeeping and the Underwriters' Laboratories. Price, No. 90048, $12.50 each.

DOUBLE ELEMENT ELECTRIC SNACK SERVER

No. 90069

This is the same as No. 90048 Electric Snack Server but is equipped with a double heating element and a thermostatic control. It will boil water and operates similar to a double-boiler. Excellent for cooking demonstrations or food sampling, or for summer cottages where it is inconvenient to get boiling water. For alternating current (AC) only. Price, $15.00 each.

ELECTRIC BUFFET WARMING OVEN

No. 90096

The Electric Buffet Warming Oven is designed for use during long parties or meals where certain foods must be kept hot and crispy. It can be used for rolls, biscuits, toast, sausages and many other foods. It has ample capacity and will hold enough to serve eight people or more.

The Electric Buffet Warming Oven was designed for Chase by Charles Arcularius. It is simple and modern in design and yet goes perfectly with other table pieces. The large polished chromium cylinder is fitted with walnut handles at either end and the two fluted walnut legs run the full length of the oven. The door slides back inside the oven without taking up any of the food space.

To use the Electric Warming Oven simply attach the electric cord to the heating element in the bottom of the oven and connect it to any convenient electrical outlet. Keep the cover closed for about 15 minutes to allow the oven to reach its operating temperature. If hot food is put into the oven, you can serve from it at once or hours later. But if cold foods, such as rolls, are to be warmed, keep them in the oven with the cover closed for a short time before serving.

It is not necessary to keep the cord attached continually during a meal. The electric element will continue to give off heat for some time after it is disconnected. This is especially helpful when food is to be served outdoors where there is no electrical outlet, or when the oven is to be passed during a buffet meal.

When serving such foods as sausages or bacon put them into a dish (we suggest the Pyrex Dish, No. 592) which will fit into the oven and keep grease from getting on the heating element. The electrical heating element is removable for cleaning and can be washed in water without damage to the unit.

The Electric Buffet Warming Oven is approved by Good Housekeeping Institute and the Underwriters' Laboratory. It operates on standard 110 to 120 volt current, either alternating or direct, 25, 40 or 60 cycles, and consumes about one-tenth of a kilowatt per hour. The oven is 10 1/4 inches long and 7 1/8 inches in diameter. Price, $12.50 each.

BUFFET WARMING OVEN

No. 90097

This is the same as the Electric Buffet Warming Oven (No. 90096) but does not have the electric heating element. Food to be served from this should be placed in it already hot. The cover should be kept closed as much as possible to retain the heat. Price, $7.50 each.

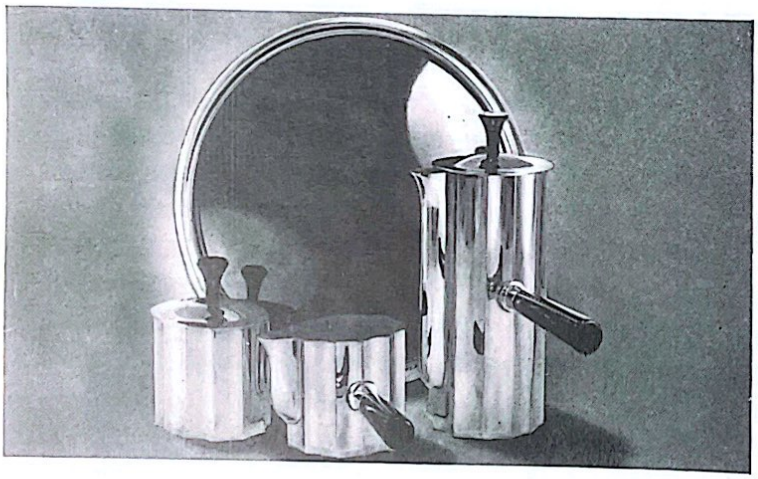
ELECTRIC BUFFET SERVER*

No. 27011 (110 volts)
No. 27029 (220 volts)

*Tested and approved by Good Housekeeping Institute and the Underwriters' Laboratories.

The Chase Electric Buffet Server, designed for Chase by Lurelle Guild, is an electrically heated dish that makes it possible to keep **four kinds of food** hot on the buffet table for hours without cooking. Up to twenty people can be served from it. In the Summer the server can be filled with cracked ice for cold foods such as lobster and chicken salads, cold soups and ice cream and other desserts, etc. Mrs. Emily Post says about the Chase Buffet Server: "Its design is modernistic, as is suitable in the polished chromium of which it is made, and yet its simplicity of design that relies for its ornamentation on octagonal outline and ivory edging and ebony handles, would be entirely in key with almost any type of house."

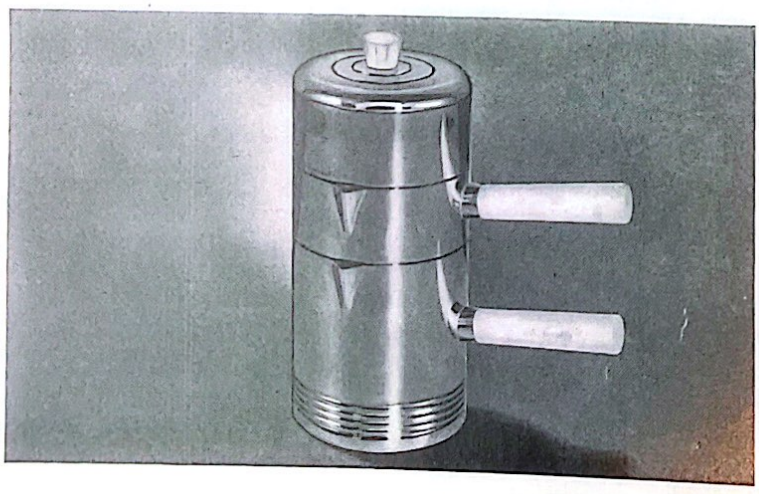
The Chase Buffet Server is a giant hot water dish, finished in chromium, half filled with water which is kept between 160° and 180° by a concealed electric heating element. Into the receptacle with its electrically heated water are placed four porcelain casserole dishes, two large (2 qts. 6 oz. capacity) and two small (1 pt. 3 oz. capacity). Food can be cooked right in these dishes which have chromium covers with black composition handles. The server has two long composition bar handles so that it can be moved easily. It operates on either A.C. or D.C. current, 110 to 120 volt circuit, 25, 40 or 60 cycles, and has a current consumption of 1/7 kilowatt per hour. Over-all the server is 18 inches long, 11 inches wide and 5 inches high. Complete directions for operation and use of the server are given in a folder which is packed with each server and available upon request. Price, $29.50 each.



DIPLOMAT COFFEE SET

No. 17029

This lovely coffee set has sold well in small country towns, and equally well in Palm Beach and other fashionable resorts. The three-piece set is available in either polished chromium or polished copper with jet black composition handles. Dimensions: Pot, 8 inches tall; Sugar Bowl, 4 inches high; Cream Pitcher, 2¾ inches high; all are 2⅜ inches in diameter. Price, set of three pieces, $17.50. Diplomat Tray to match set, 10 inches in diameter, No. 17030, $6.00 each.



INDIVIDUAL COFFEE SET

No. 90073

This charming three-piece set will appeal to those who breakfast in bed. Feature it, too, for the sick room. The cream pitcher fits on top of the coffee pot and the sugar bowl fits in the pitcher, saving two-thirds of the space on the serving tray. The pot holds 1½ cups. Height over-all 6¼ inches, diameter 3 inches. Finished in sparkling chromium with lustrous ivory composition handles. Price, set complete, $3.50 each.

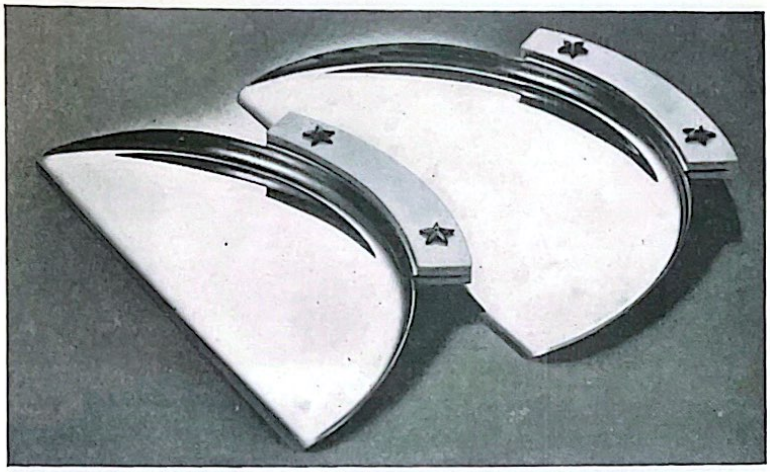
TIDY CRUMBER

No. 90092

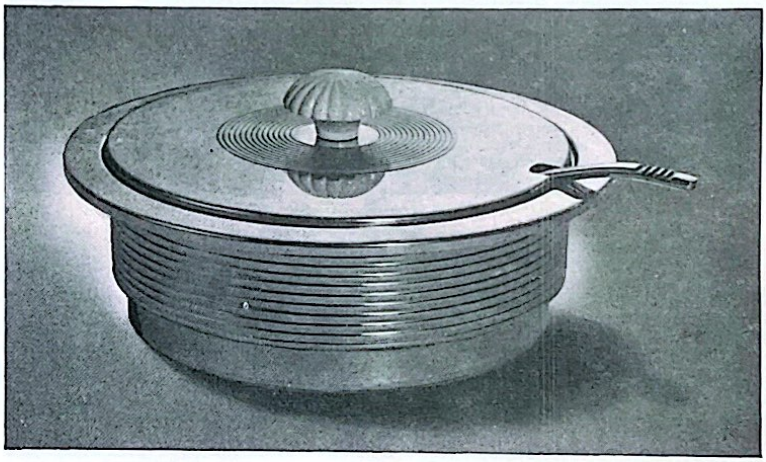
Here, at last, is a modern crumber—not too modern, but one that goes well with other smart table accessories. It comes in choice of polished chromium or polished copper. Both finishes have white plastic handles decorated with little metal stars. The tray is 8 inches across and 5⅜ inches deep. The scraper measures 7¾ inches across and 4¼ inches deep. In either finish, the price is $2.00 for the set.



BUTTER DISH

No. 17067

This attractive butter dish has a separate compartment for cracked ice to keep the butter firm in the hottest weather. It comes complete with a three-pronged serving fork. Finished in polished chromium with a decorative white plastic knob, it is 6 inches in diameter and 2⅝ inches high. Price, $3.50 each.



CONTINENTAL COFFEE MAKING SERVICE

No. 17054

Here is a coffee set with which coffee can be both made **and served.** The drip coffee pot is the only one we know of that can be brought into the dining room or living room without any apology for its "kitchen look." It consists of coffee pot, sugar bowl and cream pitcher, all finished in polished chromium with jet black composition handles. It is beautifully designed in Walter Von Nessen's modern style. And it is as practical as it is good looking because it makes coffee by the "drip" method. The coffee is served from the same pot it was made in, so all of its flavor is retained. Dimensions: Pot, 9⅜ inches high, 3¾ inches in diameter; Bowl, 3⅝ inches high, 3 inches in diameter; Pitcher, 2⅞ inches high, 3 inches in diameter. Price, three-piece set complete, $11.00. Set with No. 09018 Festivity Tray as illustrated, $17.00.

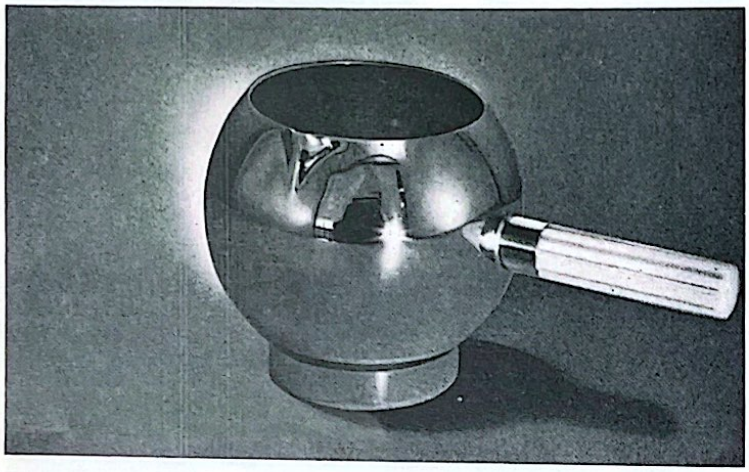
SPHERE SUGAR AND PITCHER SET

No. 90091

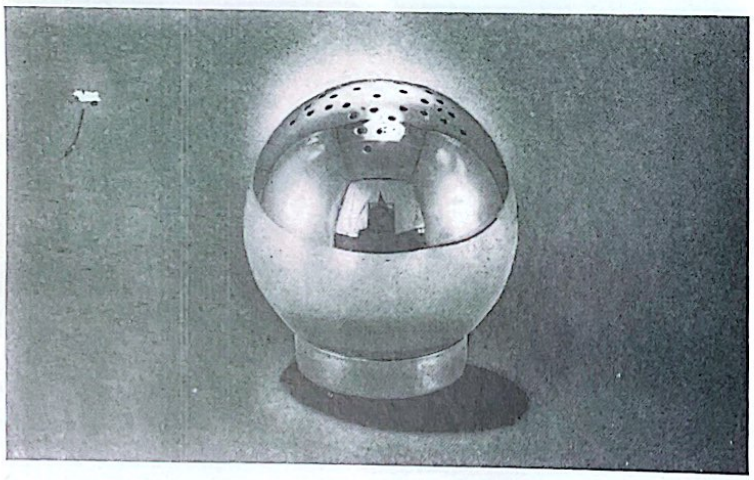
This breakfast set consists of the Sugar Sphere No. 90078, the Sphere Pitcher No. 90079 (both shown below) and the 8¼ inch Incidental Tray No. 09015 (see page 26). The set comes in a combination of polished chromium and white and is attractively packed in a gift box. Price, set of three pieces, $3.75 each.



SPHERE PITCHER

No. 90079

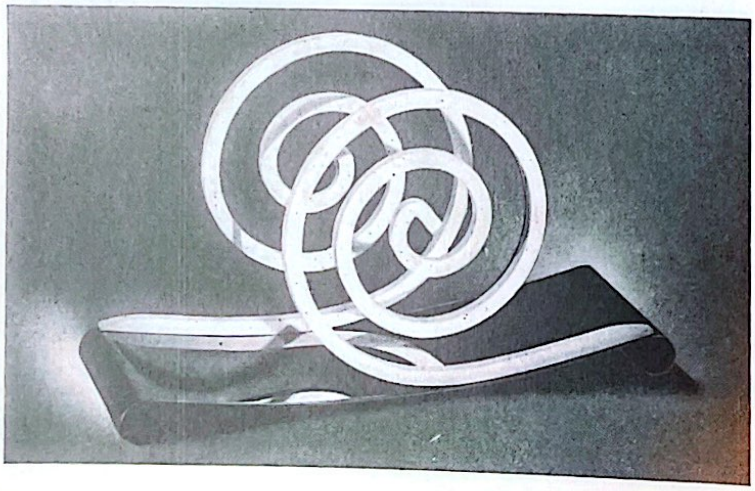
Here is an attractive little pitcher that can be used for cream, syrup, melted butter or sauces. It is finished in brilliant chromium with a ribbed white composition handle, to match our Delphic Serving Spoon and Fork. See page 15. Size, 3⅜ inches diameter, 3 inches high. Handle is 2½ inches long. Price, $2.00 each.



SUGAR SPHERE

No. 90078

This sugar shaker in polished chromium is different. The bottom unscrews to fill with sugar and the sugar shakes easily through the holes arranged in the shape of a star on the top. This shaker is invaluable in the summer because it keeps out flies and ants and protects the sugar. You can use it with either granulated or powdered confectioners' sugar. Measures 2⅝ inches in diameter and 2⅞ inches high. Price, $1.00 each.



PAPER NAPKIN OR STATIONERY HOLDER

No. 90087

This holder serves a dual purpose. It's perfect for holding paper napkins at buffet meals, informal lunches and summer meals. And it's just as good on the writing desk for holding letters or stationery. The scroll design of the sides is carried out in the gracefully curved base, which, by the way, is formed so that it will not scratch the table. The holder is 6⅞ inches long, 2¼ inches wide and 3⅞ inches high. Finish: white scroll sides with choice of either polished copper or polished chromium base. Packed with paper napkins for display purposes, it retails for $1.00.

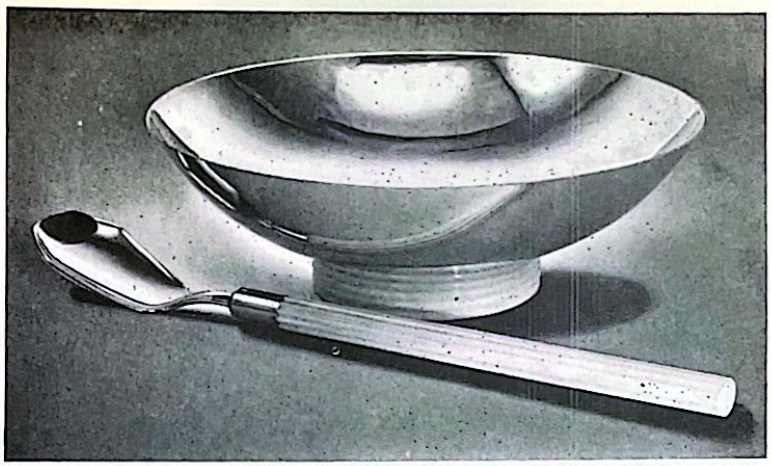
BERRY BOWL AND SPOON

No. 90083

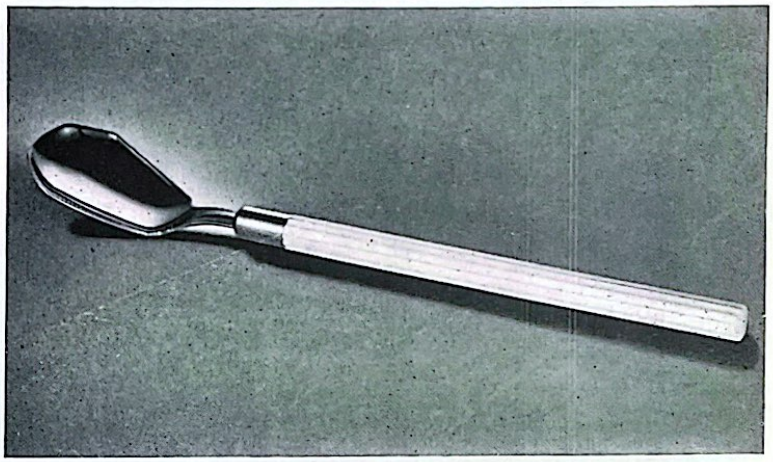
This Berry Set is cool and delightful-looking for the summer table. The 10-inch bowl holds enough for eight people, and the long slender spoon (13 1/8 inches) makes serving easy. In addition to berries, the bowl can be used for sliced fruit, ice cream, salads, etc. Available in polished chromium with base of the bowl and spoon handle in ribbed white plastic. The retail price is $5.00.



DELPHIC SERVING SPOON

No. 90088

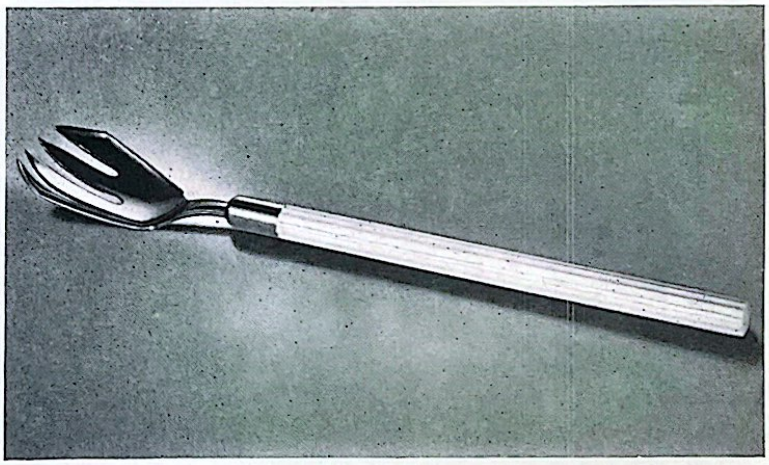
This is the same spoon as that shown and described with the Berry Bowl and Spoon above. We have made it in an extra long length, 13 1/8 inches, for easy serving. Here is a spoon that will not slip down inside the dish and get lost. Price, $1.00 each.



DELPHIC SERVING FORK

No. 90089

The Delphic Serving Fork matches the Delphic Serving Spoon. How cool and crisp it will look for summer salads and desserts. Excellent as a bridge prize. Price, $1.00 each.



SERVING FORK AND SPOON

No. 90076

The brilliant chromium of this serving fork and spoon makes a handsome contrast with the sturdy dark walnut handles. The set is excellent for mixing as well as serving salads. It's a gift that any hostess would appreciate. Its low price makes it a perfect bridge prize. Length, 10 3/4 inches over-all. Price, $1.00 per set.

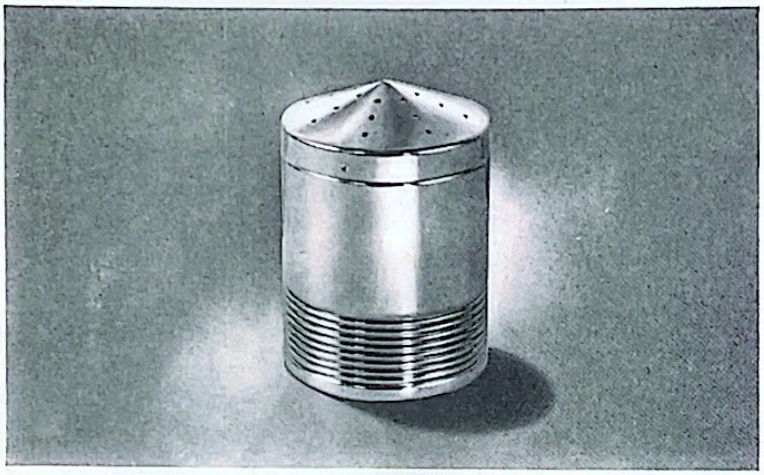
SUNDAY MORNING WAFFLE SET

No. 90059

There are two popular ways to serve waffles and pancakes. Some people like them with powdered sugar, and others with maple syrup. But whichever way you like them, this Sunday Morning Waffle Set includes all the necessary pieces.

There is a tray 12 inches in diameter; a sugar shaker 3⅜ inches high by 2⅜ inches in diameter; a syrup pitcher 4 inches high by 2½ inches in diameter; and a wide-mouthed pitcher 8 inches high by 4½ inches in diameter for pouring the batter onto a waffle iron or griddle.

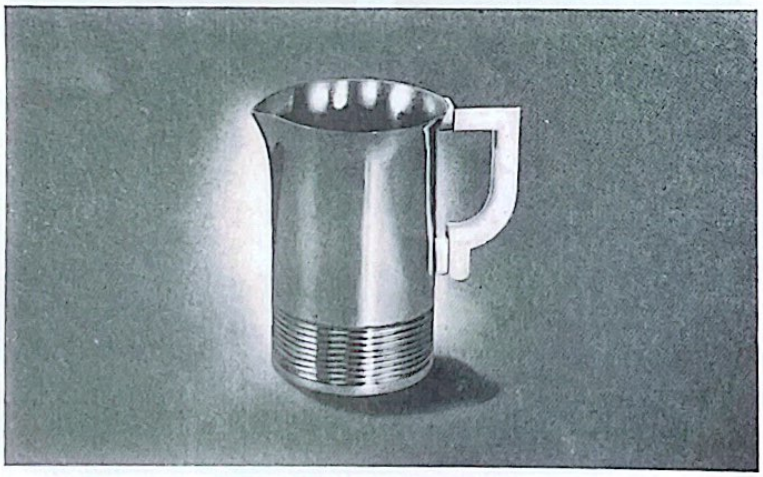
All four pieces are in polished chromium. The handles of the pitchers are in ivory-colored composition. Price, complete (4 pieces), $10.00.



SUGAR SHAKER

No. 90057

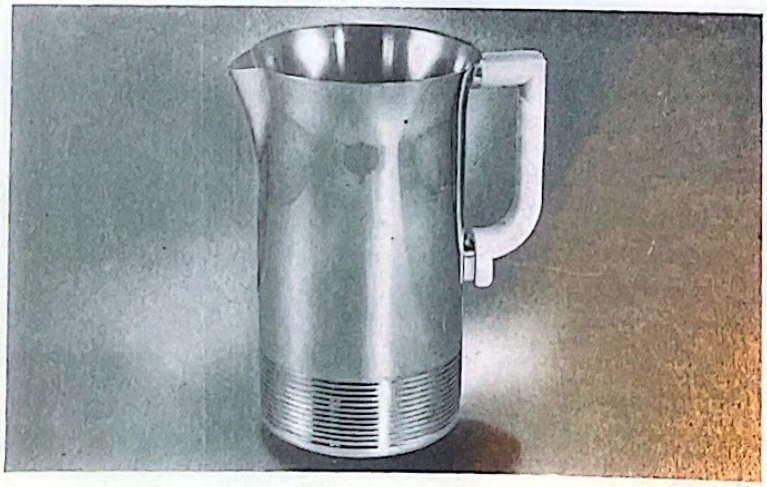
Exactly the same shaker as that used in the Waffle Set. Polished chromium finish. Price, $1.00 each.



SPARTA SYRUP PITCHER

No. 90056

This is the same Syrup Pitcher used in the Waffle Set. Polished chromium finish and ivory-colored composition handle. Price, $2.00 each.



SPARTA WATER PITCHER

No. 90055

This is the pitcher used in the Waffle Set. It is sold alone as a water pitcher. It is also excellent for serving iced tea, lemonade and beer. Available in choice of polished chromium or polished copper. Ivory-colored plastic handle. Capacity, 2 quarts. Price, $4.00 each.

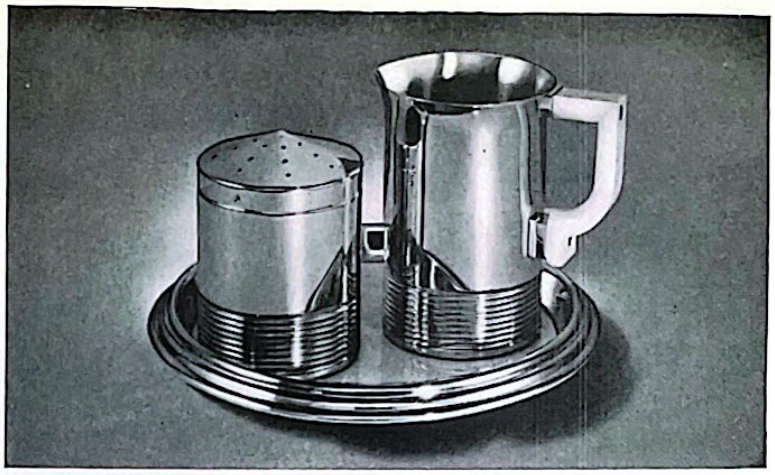
SYRUP AND SUGAR SERVICE

No. 90061

There are many uses for this chromium set. It can be used for powdered sugar and syrup for waffles and pancakes; powdered sugar and cream for cereals and fruit; or the pitcher can be used for melted butter, chocolate sauce and fruit sauces. The pitcher handle is of beautiful ivory-colored composition. The bottom of the 7-inch tray is also ivory composition, and the chromium edge is designed with three steps. Price, $4.00.

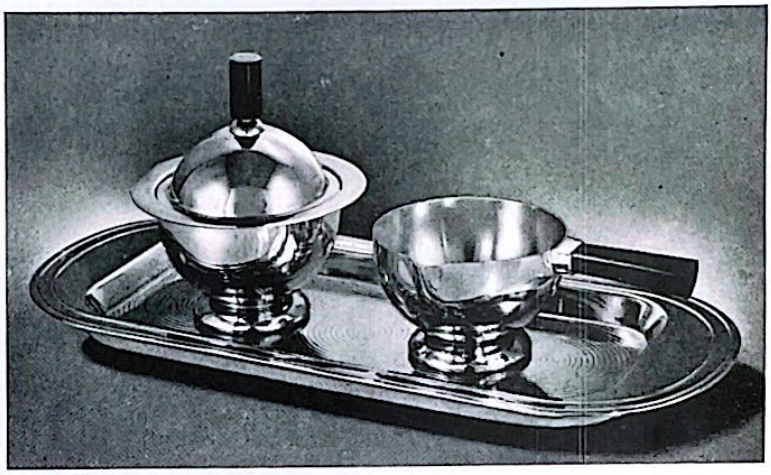


BREAKFAST SET

No. 26003 complete

No. 26001 without tray

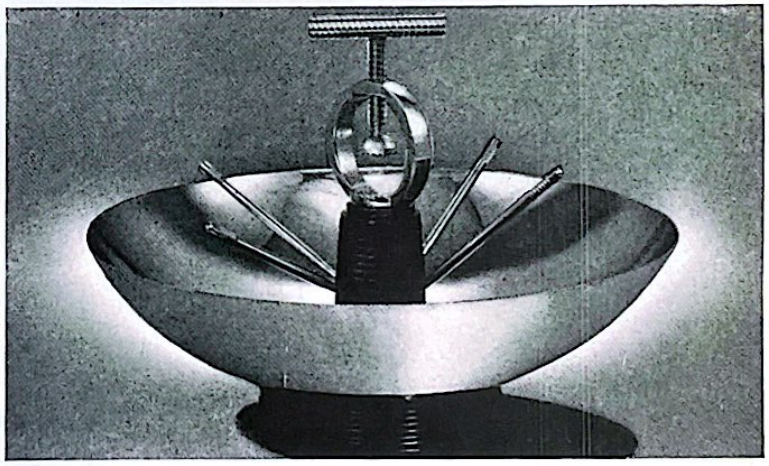
The Gerths designed this three-piece set of semi-spherical design, one of the most popular of Chase Specialties. It is of polished chromium with choice of white or black handles. An etched design decorates the tray. Dimensions: Sugar Bowl, 4 1/4 inches high, 3 3/4 inches in diameter; Creamer, 3 1/8 inches in diameter, 4 7/8 inches long over-all; Tray 11 3/8 inches long, 5 inches wide, 3/8 inch in depth. Finished in polished chromium. Prices: set complete, $3.00 each; without tray, $2.50 each. Individual Service Tray only, No. 829, 75c. each.



NUT BOWL

No. 90084

Here is a grand looking Nut Bowl in a combination of polished chromium and walnut. It is 10 inches in diameter and is securely fitted with a clever and practical nut cracker and four efficient nut-picks. The nut cracker works on the screw principle and cracks nuts easily without crushing them. Over-all height (with the nut cracker closed), 6 3/4 inches. Price, $5.00 each.



NUT CRACKER

No. 90082

This is the same nut cracker as that used in the Nut Bowl, mounted on a walnut base. The parts which contact the nut are grilled and grooved so that the nut will not slip. A twist or two will crack the toughest nut. Over-all height, when closed, is 5 1/2 inches. Price, $1.00 each.

MING TABLE BELL

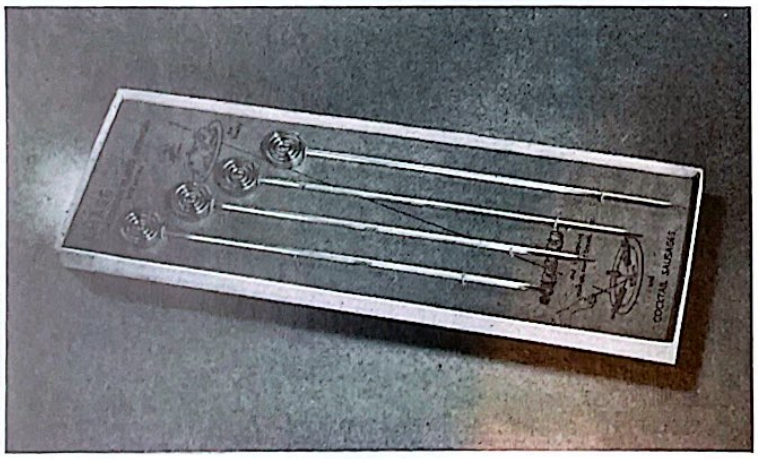
No. 13007

This attractive table bell has a cheerful, musical ring. A useful and inexpensive gift for the dining table or the sick room. Finishes: polished chromium with choice of white, green quartz or jet black composition knob; polished copper with white knob. Ming (with the ball knob) is 3 inches high. Price, $1.00 each.

MANCHU TABLE BELL

No. 13006

Same as Ming Table Bell described above but in chromium only with tall handle of green quartz, white or jet black composition. 3¼ inches high. Price, $1.00 each.



SKEWERS

No. 90075

These chromium skewers hold your meat intact while roasting and add a decorative touch when it is placed on the table. Also for grilled sweetbreads and bacon and other luncheon dishes "en brochette." For mushrooms, scallops or cocktail sausages, broil them right on the skewers and they will be ready for serving when they are taken from the oven. Invite your customers to use them this way and serve them on our Cocktail Tray (page 29). The skewers are 9 3/16 inches long. Price, per set of four skewers in gift package, $1.00.

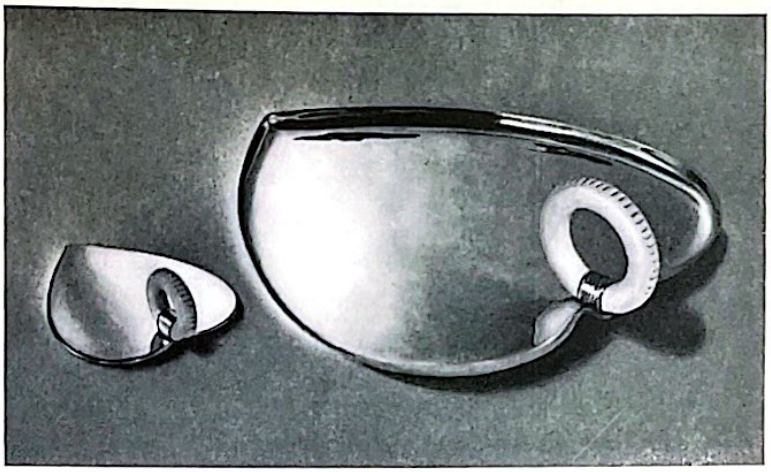
VALENTINE SERVING SET

No. 09020

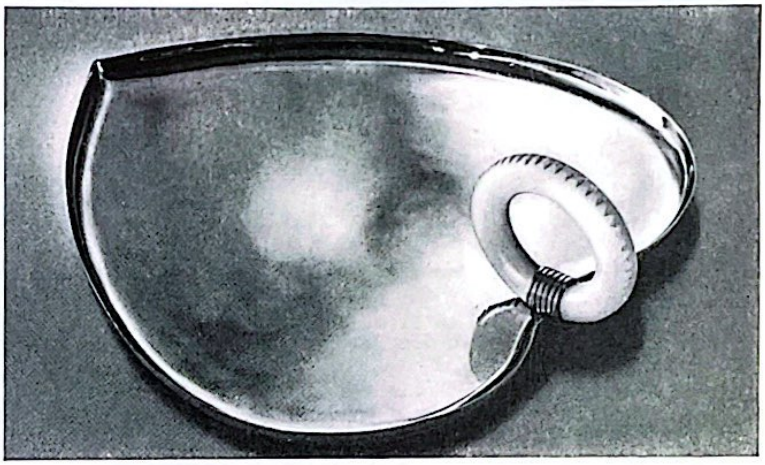
This serving set is really different. Both the large tray and the little scoop are heart-shaped and the tray has a low rim to keep things from sliding off when it's being passed. The tray is well-balanced and easy to hold even when it is full. And the scoop is perfect for serving. Use this set for little cakes, sandwiches, canapés and appetizers. Comes in choice of polished chromium or polished copper. The ring handles are of white plastic. The tray is 10½ inches long. Price, $4.00 per set of two pieces.



VALENTINE TRAY

No. 09019

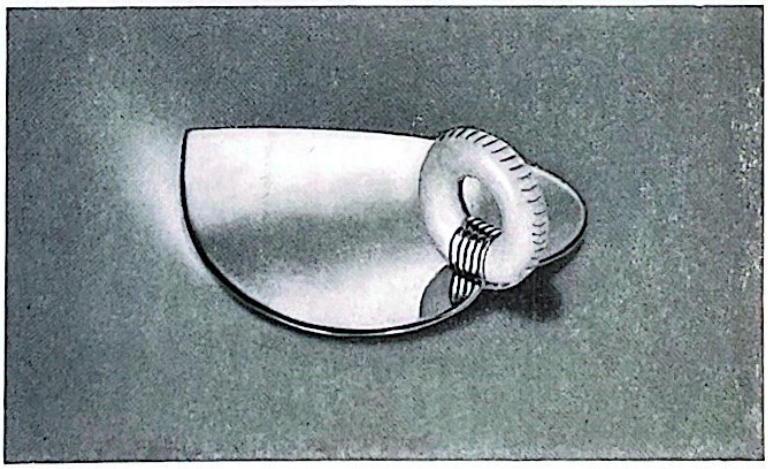
This is the tray that is used in the Valentine Serving Set described above. It can be used alone as a serving tray or, if desired, as a platter. It is 10½ inches long, 10 inches wide. Polished chromium or polished copper, with white plastic ring handle. Price, $3.50 each.



VALENTINE SERVER

No. 90094

This amusing, heart-shaped scoop is the one that comes with the Valentine Serving Set. It is 4⅜ inches long, 3⅝ inches wide and comes in choice of polished chromium or polished copper, with white plastic ring. It makes an ideal bridge prize because it's novel, good-looking, useful. And the price is only 50c. each.



CAKE AND SANDWICH TROWEL

No. 17060

Clever revamping of the familiar garden trowel by Walter Von Nessen gave us this lovely new table item. Use it for both cutting and serving cake. And use it as a scoop for serving sandwiches or pie. It is finished in polished chromium and the knobs on the handle are of ivory composition. It is 8¼ inches long and 2½ inches wide. Price, $1.00 each.

RELISH AND JAM DISH

No. 90053

Here is a relish dish of Chase Chromium and sparkling hobnail glass. The tray is 12 inches in diameter and has a rolled edge with enough room between it and the table top so that it can be picked up easily. The liner is of beautifully designed glass, divided into four compartments for pickles, radishes, hearts of celery, olives, nuts, small crackers, and other kinds of hors d'oeuvres. The jar is used for strawberry jam, mayonnaise, and other sauces, or peanuts, almonds, and other nuts. The top of the jar is gleaming chromium with an opening for the handle of the glass spoon. Price, $5.00 each.

SAVORY RELISH DISH

No. 90054

The same as No. 90053, Relish and Jam Dish, without the jar. When the jar is not used the round, center compartment can also be used for jams or sauces, nuts or small mints. Polished chromium finish with clear, hobnail glass. Price, $4.00 each.

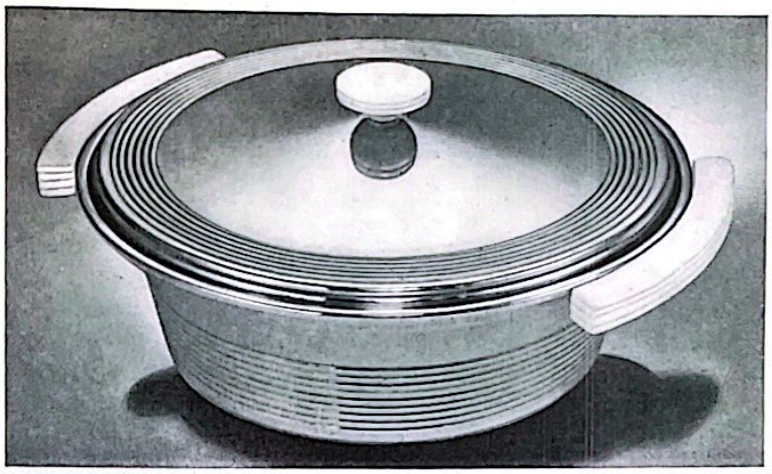
AURORA SERVICE DISH

No. 17061

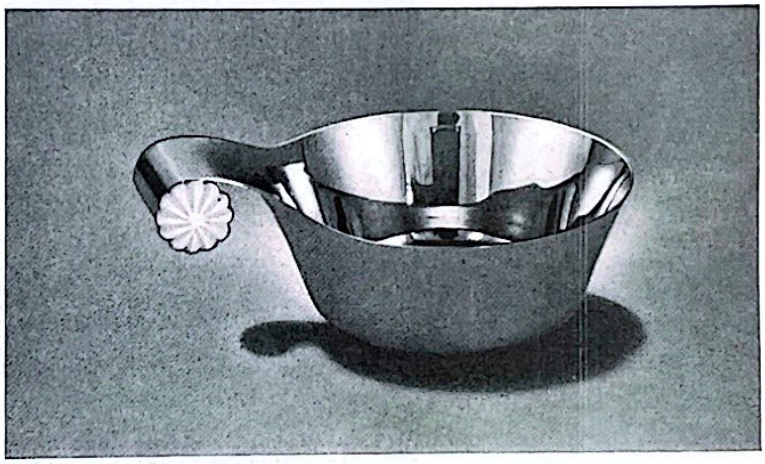
Here is a new vegetable dish by Walter Von Nessen that is as serviceable as it is good looking. It can also be used without the cover for flowers, fruit, desserts, nuts or popcorn, potato chips or candy. Simple decorative lines carry out the modern feeling of design. It comes in polished chromium with handles and knob of ivory composition. Inside it has a satin chromium finish. Dimensions: top diameter, 8 inches; bottom diameter, 5¾ inches; depth, 2⅜ inches. Price, $4.00 each.



OLYMPIA DESSERT DISH

No. 17059

We've never seen a dessert dish as handy as this one for formal meals or buffet parties. Its scroll handle makes it easy to hold at a sit-down-or-wander-about meal. Ivory composition knobs on the handle make a pleasing combination with the polished chromium finish. We suggest displaying it with the Olympia Tray (page 22). It is 1¼ inches deep and 3⅞ inches in diameter. Price, $1.00 each.



OLYMPIA SERVING DISH

No. 17058

A deep-enough tray for serving celery, olives, carrots, radishes, etc., at the table. Also for crackers, biscuits, bread, rolls, cookies, potato chips and many other things. It is finished in polished chromium with ivory composition knobs. The scroll handles at either end make it easy to pass around. Dimensions: over-all length, 13 inches; depth, 15/16 inch; width, 4⅛ inches. Price, $3.50 each.

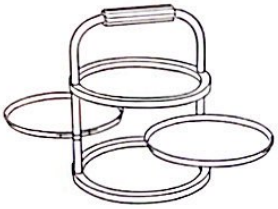
FOUR-IN-HAND SERVING TRAY

No. 17074

We've never seen a smarter nor more efficient tray than this one. It really is four trays in one, and yet the stand with its four trays can be easily passed with one hand. When open, the top tray is directly above the bottom, the two center trays swinging out to the sides. When not in use, the center trays fit compactly together in a stacked arrangement. The over-all size is 10¼ inches high, 8⅜ inches in diameter. Polished chromium finish, with fluted handle of white plastic material. Price, $7.50 each.



TWO-IN-HAND TRAY

No. 17077

The Two-In-Hand Tray is the same as the Four-In-Hand Serving Tray described above except that this Two-In-Hand Tray does not have the two movable center trays. There's plenty of room on this tray—tall drinks go on the bottom and appetizers, crackers or sandwiches on the top. And it can be carried in one hand. Price, $5.00 each.

MERIDIAN TRAY

No. 17078

There are many uses for a tray like this one around the home and on the buffet table. It will conveniently hold tea-biscuits, sandwiches, crackers, hors d'oeuvres, fudge, a small smokers' set or four drink glasses. It is 7⅞ inches in diameter and has a ring ⅜ inch high. Polished chromium finish with white handles. Price, $1.00 each.

COCKTAIL CANAPÉ SERVER

No. 28001

The Cocktail Canapé Server is extremely useful for smart informal gatherings. The lower tray holds cocktails, while the upper tray holds hors d'oeuvres, canapés and appetizers. Small cocktail napkins tuck into the rings. We suggest alternate solid colored ones, such as red and white. The server requires but little space on the table and can be carried easily with food and drinks without danger of tipping or spilling. Over-all height, 13¾ inches; diameter of trays, top, 12¾ inches; bottom, 13¼ inches. May be dissassembled for storage if desired. Polished chromium finish. Price, $10.00 each.

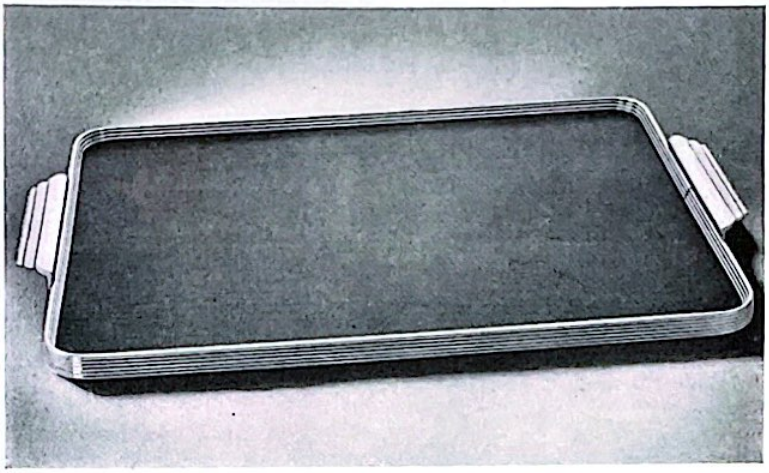
FESTIVITY TRAY

No. 09018

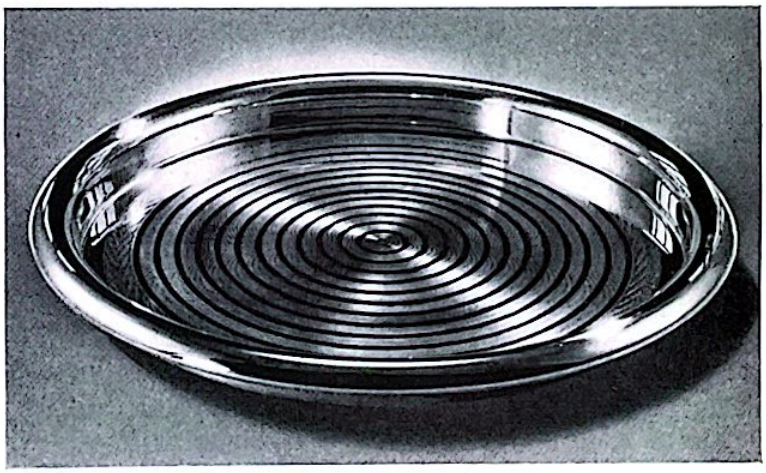
Here is a serving tray that's new and smart. It is large enough to hold a cocktail shaker, hors d'oeuvres plates and plenty of glasses. The heavy carved edge and the "stepped" handles are of either polished copper or polished chromium. The wood base is beautifully finished in polished walnut and it is treated so that it is moisture proof, stain proof and cannot warp. The tray also comes in polished copper with a white base and in polished chromium with base of white or black. The tray itself is 12¼ inches wide, 17¾ inches long and has a ⅝ inch high rim. Price, $6.00 each.



RING TRAY

No. 90058

This 12-inch tray is a happy medium in size. It is the tray from the Waffle Set shown on page 16 and it is neither too large, nor too small for general use. It has a high rim to keep things from sliding off. The flanged, round edge is a continuous handle. Polished chromium finish with an all-over design on the bottom. Price, $3.00 each.



ROUND TRAY

No. 17006

A sturdy tray of beautiful design to hold many glasses. It is 12 inches in diameter and has a small beaded flange about ¾ inch high. Available in polished copper or polished chromium. Individually packed. Price, $4.00 each.

BLUE MOON COCKTAIL SHAKER

No. 90066

Here is a shaker that every household will want because it's good looking and practical. It is modern in design and finish. The polished chromium appears even more brilliant next to the dark blue or white plastic stopper. There's a strainer built into the top section to strain back fruit solids. And it pours every ounce of its 1 1/4 quarts capacity without dripping a drop! 12 1/4 inches tall, 3 1/2 inches in diameter. Price, $4.00 each.

BLUE MOON COCKTAIL CUP

No. 90067

To go with the Blue Moon Cocktail Shaker, we have designed this graceful cocktail cup. It is of deep blue glass with base of polished chromium. The glass is fastened to the base. The cups are 3 1/2 inches high and 2 1/4 inches in diameter. Price, 50c. each.

"SQUEEZIT" BOTTLE OPENER

No. 90086

The Chase "Squeezit" bottle opener (patented) is the first really new opener we have seen in years. The handle is pressed down against the bottle with very little pressure. It can't slip and cut your finger. Both bottle and opener can be held with one hand only! A special spring holds the cap from flying after the bottle is opened. This opener doesn't bend the cap out of shape—you can replace it on half-full bottles if you want to. Take our word—it IS the best opener made. And the design of the Griffin will sell it on sight. It is made of heavy forged brass and has a thick chromium plate. Measures 4 1/2 inches long. Retail price, 50c. each.

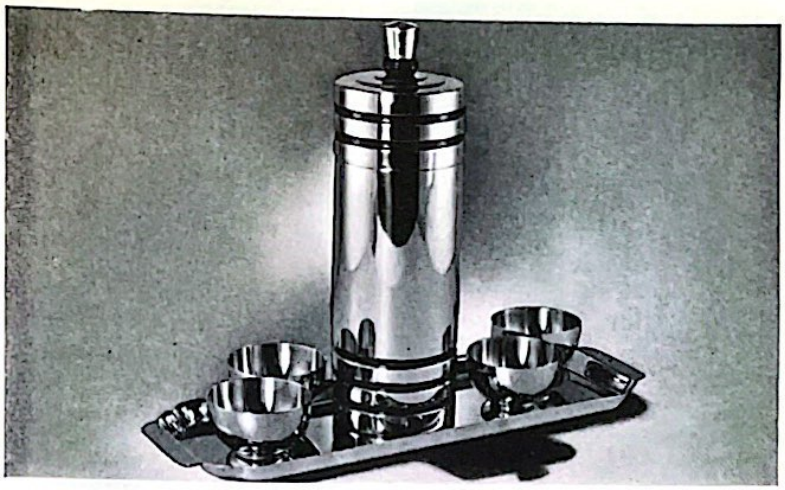
COCKTAIL SET

No. 90064

Many people prefer to buy cocktail articles in sets rather than in individual pieces. So we have made up this set which we know from experience has sold well. The tray is the Cocktail Tray, No. 09013 (shown on page 29) and the shaker and four cups are listed below on this page. This set, packed in a gift box, retails for $8.50.



COCKTAIL SHAKER

No. 90034

Entirely modern in its appearance, it retains the usefulness of old-fashioned shakers. The top is fitted with a sleeve which fits snugly into the pouring lip when shaking to prevent leaking or spilling of contents. A strainer is also provided to hold back the mint leaves, lemon rind, or other solids. Finished in bright chromium with choice of black, red or green enamel rings at top and bottom. Satin silver inside. Height, 11½ inches; diameter, 3¾ inches. Individually packed in gift box. Price, $4.00 each.

COCKTAIL CUP

No. 26002

Simplicity is an outstanding feature in the design of this distinctive cocktail cup, but it is the simplicity of line and decoration that suggests sophistication and good taste. The cup is 2 inches high, 2¾ inches in diameter and is finished in polished chromium outside and satin chromium inside. Price, 50c. each.

LIQUEUR SET

No. 90046

This attractive set consists of six gleaming chromium Liqueur Cups (No. 90047) and a small round tray with deep English blue glass bottom. The small cups, 2⅜ inches high, hold just enough and will not tip over easily. Furnished in polished chromium. Price, set complete, $4.00; Liqueur Cups only, 50c. each.

COASTER TRAY

No. 09014

This tray is the same as that in the Liqueur Set described above. It is 6 inches in diameter and has a rolled edge in polished chromium about ¾ inch high. It can be used as a glass coaster, a card tray and for many other purposes. Price, $1.00 each.

WINE COOLER

No. 27015

All white wines, sauterne and champagne, imported or domestic, should be iced before using, and kept in ice during use. Here is a wine cooler which never has to be polished and is, therefore, always ready to be used. Rockwell Kent, famous American artist-author has designed a beautiful decorative plaque for it. The child Bacchus, homeward bound with wine grapes, symbolizes the spirit of wine. This is the first time Mr. Kent has ever designed for metal. The cooler can also be used as a lovely flower vase for large flowers or laurel. It is 9¼ inches high, and 8½ inches in diameter. Available in all-chromium finish, or combination polished brass and polished copper. Price, $7.50 each.

WINE BOTTLE STAND

No. 27016

The Wine Bottle Stand keeps dripping bottles from staining the table-cloth. It is particularly for red wine, but also for beer, ginger ale and other bottles. Plaque design is by Rockwell Kent. The stand is 4½ inches in diameter, and 2 inches high. Finished in polished chromium; combination polished brass and copper. Price, $1.00 each.

FIESTA FLOWER BOWL

No. 29002

This graceful bowl, designed by the Gerths, gets its name from the Spanish word "fiesta," which means "a joyous and gay holiday or festivity when flowers play an important part in decoration." Here at last is a properly designed flower bowl. It is open enough at the top to spread out the flowers; small enough at the bottom to hold the stems from slipping; and it is deep enough to hold plenty of water and to support the stems properly. The reflections of the colored flowers and surrounding objects in the highly polished outside surface give a charming effect. From an 8-inch top diameter the bowl tapers in gradually until with a well-rounded curve it reaches the 4-inch wooden base. Over-all it is 6 inches high. Available in polished chromium with black base, or polished copper with walnut or white base. Price, $5.00.

FIESTA CANDLESTICKS

No. 29001

Although these unusual candlesticks were designed as companion pieces to the Fiesta Flower Bowl, they do not depend on the bowl for their smartness. The Fiesta Candlesticks mounted on a wooden base resemble an unright hoop, the ends of which form the candle holders. The small wooden collars underneath the candle holders are in keeping with the base. Finished in polished chromium with black wood base and collars, or polished copper with walnut or white base and collars. Size: 8 inches wide, 8 3/8 inches high, 3 7/8 inches base diameter. Price, $4.00.

STRATOSPHERE SMOKERS' STAND

No. 17076

At last, here is something new in a smokers' stand, designed for Chase by Walter Von Nessen. It is a large ball 5¾ inches in diameter mounted on a fluted tubular post. The top half of the ball is not hinged but swings down in any direction when in use, and the bottom half serves as a bowl to hold ashes and cigarette ends. Inside the bowl there is a rest for holding and snuffing out cigarettes. Cigarettes placed on this rest cannot fall outside the bowl onto the floor or rug even if they are left alone and forgotten. The Stratosphere is designed so that when the top is closed, no unsightly ashes are visible and there are no lingering fumes of stale smoke. It is just the right height, 26 inches, and the base is heavily weighted to prevent tipping. Finished in choice of English bronze or combination of chromium and black. Price, $5.00 each.

HI-LO SMOKERS' STAND

No. 836

The upper half of this smokers' stand telescopes into the lower half. A few turns of the ring centered on the tube holds the tray at the desired height. "LAZY BOY" SMOKERS' STAND

No. 17031

This beautiful combination of ash stand and smokers' cabinet is dignified and serious enough for a man's office and yet handsome enough for the most luxurious living room. The chromium and red combination is very decorative in game rooms, porches and modern rooms. It has a roomy compartment for pipes, tobacco, cigars, cigarettes, and matches, which is easily accessible by sliding open the top which pivots around the ash tray. The special composition top is stainproof to insure a permanently neat and trim appearance. The base is heavily weighted to prevent tipping. The ash container runs the length of the corrugated tube and can easily be emptied by lifting up the ash tray and tube. A spring attached to the cover of the ash receiver keeps it tightly closed when not in use. This clever and useful smokers' stand was designed for us by Walter Von Nessen. Finishes: English bronze with top to match, combination black and satin nickel with black top and chromium with red or black top. Over-all height, 22 inches; top diameter, 14 inches. Price, $12.50 each.
